

RECOGNIZING THE TYLER JUNIOR  
COLLEGE APACHES' NJCAA DIVI-  
SION III WORLD SERIES CHAM-  
PIONSHIP TITLE

**HON. LOUIE GOHMERT**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Mr. GOHMERT. Mr. Speaker, it is indeed a great honor to extend most heartfelt congratulations to the Tyler Junior College Apaches Baseball Team in completing an outstanding season which concluded with the team's triumph in the 2014 NJCAA Division III World Series baseball tournament.

Through hard work and determination, the TJC Apaches defeated Cumberland County (New Jersey) Community College in front of a wildly enthusiastic crowd with a final score of 6–3.

In spite of a rain delay which lasted two and a half hours, hundreds of devoted fans remained to cheer on the Apaches in a game which lasted until after midnight.

The TJC Apaches made history for their school by bringing home the second national baseball championship title, and the fiftieth national championship for TJC since athletics was first organized back in the 1940s.

The TJC Apaches exemplify what it means to work seamlessly as a team, with remarkable victorious results. Their sportsmanship, humility, determination, hard work, and skill are to be commended, admired, and emulated.

The national championship team was led to victory by an outstanding coaching and administrative staff including: Head Baseball Coach Doug Wren; Assistant Coaches Travis Chick and Josh Salmon; Training Staff Eddy McGuire, Jeff Derrick, MacKenzie Stilwell, Daniel Garcia, and Martha Rascon; and Student Support Staff consisting of Trenton Buchhorn, Talyn Callucci, and Chad Cunningham.

Great praise goes to the team members Manny Galvan, Tim Hunter, Daniel Brown, Dusty Lynch, Gunnar Quick, Cody Broussard, Kevin Kubeczka, Collin Lawrence, Justin Monsour, Dynas Doud, Brandon Webb, Garrett Johnston, Reid Russell, Kevin Williams, Anthony Soriano, Jarrett Dooley, Travis Johnson, Eric Polivka, Zane Otten, Will Abbott, Eric Stegent, Brandon Koncaba, Brent Ellerbee, Connor Wrye, Cody Brown, Kash Armstrong, Grant Freels, Jacob Hickman, Lane Norwood, and Tyler Gaines.

Tyler Junior College has a rich history of academic and athletic achievement, and once again students and staff have risen to the pinnacle of success under the expert leadership of TJC President Dr. L. Michael Metke; Athletic Director Dr. Tim Drain; Assistant Athletic Director Chuck Smith; and Vice President of Student Affairs Dr. Juan Mejia.

Accolades must also be given to the players' families and the entire community of supporters who reside in east Texas and beyond, who embraced the warrior spirit for which the team was named. Without these devoted fans' support and encouragement, the Apaches' road to yet another national championship would have been much more difficult.

It is with great pride that I join the constituents of the First District of Texas in congratulating the players and athletic staff of the 2014 NJCAA Division III World Series National Champions, the TJC Apaches Baseball Team. Their legacy is now recorded in the CONGRESSIONAL RECORD that will endure as long as there is a United States of America.

HONORING MS. FRANCES DUNHAM  
CATLETT

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Ms. LEE of California. Mr. Speaker, I rise today to honor the extraordinary life of Ms. Frances Dunham Catlett. Known throughout the Bay Area as a writer, painter, social worker, poet and devoted mother, grandmother, great grandmother and great-great grandmother, Ms. Catlett has left an indelible mark on our community. With her passing on April 22, 2014, we look to the outstanding quality of her life's work.

Born on July 3, 1908 in Hartford, Connecticut, Ms. Frances Dunham Catlett was raised with an acute awareness of slavery in America. Her mother was formerly enslaved and her father was the son of a white slave trader. As the youngest of ten siblings, Ms. Catlett always proved to be an excellent student. Graduating high school in 1926, she received a four-year scholarship to the University of Chicago.

In 1945, Ms. Catlett and her two sons, Kaye Lawrence and Michael Andrew, moved to San Francisco, where she worked at the Welfare Department. Breaking racial barriers, she was known as one of the first African American social workers in San Francisco. In addition, she later enrolled in Mills College and was one of the first African Americans to earn a graduate degree from that university. Ms. Catlett went on to teach social welfare at California State University, Sacramento.

After moving to Berkeley, California, Ms. Frances Dunham Catlett enrolled in an art class at the de Young Museum in San Francisco and discovered her love of painting. Her artwork was showcased at the Oakland Museum of California and other galleries in Oakland and San Francisco.

In addition, she published her third person autobiography in a compilation of stories entitled "Black Women Stirring the Waters." Her entry, "Soft Colors, Bold Statements," acknowledged the strong role her family and supportive church community played in her success in life.

Ms. Frances Dunham Catlett was an inspiration to many African American women. At the age of 103, Carolyn Schlam painted Ms. Catlett's portrait to share her character and life story with others. This portrait, "Frances at 103," was displayed in the National Portrait Gallery of the Smithsonian Institute in Washington, DC and will move to the National Museum of African American History and Culture when it opens in 2015.

With an adventurous spirit, Ms. Catlett traveled extensively, hiked with the Sierra Club,

did Tai Chi into her 90's and bowled and painted until she was 102. She was featured as one of six women in the documentary "Still Kicking: Six Artistic Women of Project Arts & Longevity," which challenged the perception and attitudes about aging. She was truly a woman for all seasons.

Several years ago, I visited Frances at her apartment in Berkeley. We talked about many things, including politics and art. She showed me many of her beautiful paintings, which inspired me to purchase one and hang in my office for my constituents to admire. This painting is a reminder of her artistic genius, her lively and beautiful spirit and her big heart.

Today, California's 13th Congressional District salutes and honors an outstanding individual, Ms. Frances Dunham Catlett. Ms. Catlett's contributions have truly impacted so many lives throughout the Bay Area. I join all of Frances' loved ones in celebrating her incredible life. She will be deeply missed.

TRIBUTE TO THE EMPLOYEES OF  
THE BABCOCK & WILCOX COM-  
PANY

**HON. MAC THORNBERRY**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Mr. THORNBERRY. Mr. Speaker, nothing is more important to our Nation's security than its nuclear deterrent. And yet, most of us give little thought to the care, attention, and expertise required to keep these aging machines safe, secure, and reliable.

It is my honor to represent a substantial number of the people who make sure that our nuclear deterrent can be trusted. Those who work at the Pantex Plant near Amarillo cannot talk much about their work because it is classified, but every day they do extraordinary work that is central to keeping our country safe.

For the last 13 years, the management team at the Pantex Plant, as well as the Y-12 facility in Oak Ridge, Tennessee, has been led by the Babcock & Wilcox (B&W) Company. In my view—and it is proven by their record—B&W has done an outstanding job of managing these very important facilities under quite difficult circumstances.

With tight or declining budgets and constant demands to find ways to cut costs yet having no room for error in carrying out the mission, B&W has helped ensure that workers were safe, that the weapons and material were secure, and that our Nation's security was protected. At Pantex, they received a number of awards for worker safety, security certification, and outstanding performance.

All along, B&W also supported the community by donating more than half a million dollars annually to worthwhile charities and causes.

Usually, when we hear about government contractors, it is when something has gone wrong. Mr. Speaker, I think it is important to take a moment to recognize more than a decade of contributions to our Nation's security at these key facilities.

RECOGNIZING APRIL AS NATIONAL  
LANDSCAPE ARCHITECTURE  
MONTH

**HON. EARL BLUMENAUER**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Mr. BLUMENAUER. Mr. Speaker, for nearly two decades, one of my primary missions in Congress has been a simple one—to make our federal government a better partner to our local communities. Specifically, I believe we need to focus on making our families safer, healthier, and more economically secure by dealing with low-tech, high-impact, inexpensive solutions to some of society's most expensive problems. In many instances that means making the communities that our landscape architects know how to create, a reality. As an honorary member of the American Society of Landscape Architects, and humble recipient of the Olmsted Medal, it's an honor to highlight the importance of National Landscape Architecture Month and the many men and women who carry out this critical and visionary work.

National Landscape Architecture Month (NLAM) provides all of us—the professionals, the outside advocates like myself, and future designers—with an opportunity to more fully appreciate landscape architecture's benefits and contributions. In recognition of NLAM, I would like to highlight the landscape architecture profession and how landscape architects utilize design to make our lives not only better and more enjoyable by creating engaging public spaces, but also more secure by creating efficient, cost-effective infrastructure solutions. Landscape architecture connects the analysis, planning, design, management, and stewardship of the natural and built environments through science and design. The presence of the American Society of Landscape Architects (ASLA) and landscape architect professionals in our communities has always been positive, and as the desire for livable spaces grows and the natural environment continues to get squeezed by increased urbanization, this profession will get significantly more attention.

During the month of April, landscape architects in my hometown of Portland, Oregon and across the country held public events showcasing the work of the profession that directly engage the public through local projects, speaking engagements, and in-school presentations. This year's theme, Career Discovery, introduced young people to landscape architecture as a possible career path and focused on introducing underrepresented minorities to the profession, illustrating the fundamentals of landscape architecture and design, and demonstrating how the profession can unlock human creativity and imagination to develop sustainable, livable spaces in communities across the Nation.

In addition to beautifying and making our communities more livable, in which people can walk, bike, or take public transportation, landscape architecture is a critical tool for mitigating greenhouse gas emissions and responding to the effects of climate change and extreme weather events. The field is also making new strides to improve America's aging transportation infrastructure. Landscape architects are now incorporating multiuse transportation corridors that accommodate all

users, including pedestrians, bicyclists, motorists, people with disabilities, and people who rely on public transportation.

Landscape architecture also touches our everyday lives in the design of residential communities, commercial developments, and streetscapes. Landscape architects manage storm water and other water quality issues through green infrastructure practices—reducing runoff, improving water quality, and recharging groundwater supplies. The use of trees and vegetation in urban design are critical to a sustainable environment, and are major combatants to ground and water pollution.

I urge my colleagues to join me in recognizing National Landscape Architecture Month and the contributions landscape architects are making to transform our aging infrastructure into well-planned communities across the Nation. Every day, these well-qualified, licensed professionals continue to lead the way in improving the lives and safety of the American people for generations, both present and future.

RECOGNIZING DENNIS BOUCHER  
2014 PAUL BUNYAN "SERVICE  
ABOVE SELF" AWARD RECIPIENT

**HON. SEAN P. DUFFY**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Mr. DUFFY. Mr. Speaker, on "National Paul Bunyan Day," it is fitting to announce the incredibly deserving winner of the 2014 Paul Bunyan "Service Above Self" Award. Wisconsin's 7th District is home to the final resting place of Paul Bunyan, but the legend of this larger-than-life lumberjack is alive and well. Paul Bunyan is a symbol of might, the willingness to work hard, and the resolve to overcome all obstacles. This year's Paul Bunyan "Service Above Self" Award winner is Dennis Boucher of Marshfield. He embodies the larger-than-life spirit of Paul Bunyan and has gone above and beyond to improve our 7th District community.

Rural homelessness is a prevalent issue in our area. About 2 years ago, a group of community leaders, including Dennis, got together to brainstorm ways to address this issue. Discussions led to the local St. Vincent de Paul Society, which had a plot of land available that could be used to build transitional housing.

Dennis took up the mighty challenge of leading the effort to establish a transition housing facility for those in need in Marshfield.

According to his nominator, "From the moment of his involvement, Dennis has never wavered. He has, with quiet confidence and supreme faith, pushed the project forward such that today there is a fourteen apartment family homeless shelter in Marshfield. Currently, there are nine families housed there; soon to be eleven.

"Dennis has spent hours as a volunteer, charitable donation coordinator, construction worker, janitor, cook, and now as a volunteer to provide oversight to the shelter as we build a base of volunteers and paid staff to assure 24/7 supervision of the facility. There is no task too big or too small for Dennis to address with all of his energy. Dennis Boucher's impact on our community will continue for years to come."

Mr. Speaker, it is my privilege to recognize this honorable man. On behalf of this body and my constituents, I'd offer to Dennis our congratulations and thanks for his invaluable commitment to our community and the people we strive to serve.

CONGRATULATING MR. HARRY C.  
McCANN ON HIS RETIREMENT

**HON. MICHAEL G. FITZPATRICK**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Mr. FITZPATRICK. Mr. Speaker, on the occasion of the retirement of Harry C. McCann, Bucks County Director of Law Enforcement Training, I acknowledge his 25 years of exemplary service and commitment to the County of Bucks and his many contributions as an educator of municipal police officers and administration of justice students. As director, he developed, coordinated, and implemented training programs for more than 800 law enforcement officers in Bucks County's 42 outstanding police departments. These officers went on to save countless lives in South-eastern Pennsylvania—a lasting legacy well beyond his own retirement. Harry served as project manager for the county's DUI and expansive highway safety programs and was responsible for oversight of the Bucks County Department of Corrections In-Service and Correctional Academy programs. In wearing many hats, Harry McCann has demonstrated tireless service and leadership and, in so doing, has set an example for others who may follow in his path. I wish him happiness and continued success in all his future endeavors.

TRIBUTE TO DIANA POTEAT STALLINGS HOBBY: SCHOLAR, PHILANTHROPIST, PUBLIC SERVANT AND PATRON OF THE ARTS AND HUMANITIES

**HON. SHEILA JACKSON LEE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, July 8, 2014*

Ms. JACKSON LEE. Mr. Speaker, I rise to pay tribute and remember the late Diana Hobby, wife of former Texas Lt. Governor William P. Hobby, Jr. and one of the most accomplished and public spirited women in the history of the great State of Texas.

Diana Hobby died on Friday, July 4, 2014, in Houston, Texas after a long struggle with Alzheimer's disease and cancer, with her beloved husband and four children at her bedside.

Diana Poteat Stallings Hobby, was born April 22, 1931, in New York, New York to Helen Poteat and Laurence Tucker Stallings and raised in North Carolina.

She was a brilliant student, graduating from the Chatham Hall School in 1948 and with honors from Radcliffe College in 1952 where she was also admitted to Phi Beta Kappa—the oldest honor society for Liberal Arts and Sciences in the United States.

On September 11, 1954, she married the love of her life, the dashing William P. "Bill" Hobby, the future Lt. Governor of Texas, who
